RESEARCH EXPERIENCE

Project Assistant | University of Wisconsin-Madison Sep 2023 – Present
School of Nursing

Selected research projects:

Measuring Mobile Crisis Teams' Occupational Health and Safety Experiences

Project Assistant | PI: Rachel Odes Sep 2026 – May 2027 (anticipated)

- Support development and administration of a Qualtrics survey assessing mobile crisis teams' occupational health and safety experiences
- Support qualitative analysis of interview data assessing mobile crisis teams' occupational health and safety experiences

Culturally Tailored Breast Cancer Prevention: Breast Cancer Awareness and Risk Education for Asian Americans (CARE)

Project Assistant | PI: Jingxi Sheng Jan – Aug 2026

- Supported data collection and analysis for a culturally tailored project designed to enhance breast cancer awareness and risk education among Asian Americans
- Contributed to literature review, data extraction, analysis, and manuscript preparation for a systematic review examining community-based participatory research approaches in cancer research

Rural Cancer Patients' Symptom Self-Management Information Sources and Evaluation of a Web-based Self-Management Intervention

Project Assistant | PI: Kristine Kwekkeboom Sep 2024 – May 2025

- Supported survey and interviews, data analysis, preparation of abstracts and manuscript for research examining symptom self-management information sources and evaluating a web-based intervention among rural cancer survivors

Coordinated Management For Co-Occurring Cancer-Related Symptoms

Project Assistant | PI: Kristine Kwekkeboom

Sep 2023 – Aug 2024

- Supported data collection, analysis, and preparation of abstract and manuscript to a pilot randomized controlled trial of a coordinated symptom management intervention for patients with multiple co-occurring cancer symptoms
